The greatest improvement in Corsets during the past twenty years is the use of Coraline in the place of horn or whalebone. It is used in all of Dr. Warner's Corsets and in no others.

The advantages of Coraline over horn or whalebone are that it does not become set like whalebone, and it is more flexible and more durable.

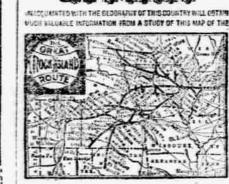

Dr. Warner's Coraline Corsets are made in twenty-four different styles, fitting every variety of figures-thin, medium, stout, long waists and short waists.

Sold everywhere. WARNER BROS., Mfrs., New York and Chicago.

Young Men Be Square.

It is a sad day in the life of a young nan when he decides that there is an easier way to obtain money and goods han by honestly working for them. It s just such decisions as that fills the ails and workhouses and keep the ranks f the great army of dead beats full to overflowing. It is just such decisions as that make a young man pull his hat ver his eyes and dodge into a doorway or scoot across the street for fear of meeting a man that he owes an honest lebt which he has deliberately decided never to pay.

Young man, what business have you seven-dollar shoes or that Dunlap hat? none of them are yours and you know you and claim his own property. And yet it would serve you right if they seized all of their property and leave you to sneak home with nothing on but your own clothes, which probably would consist of one heel-less sock and a piccadilly collar, with possibly a 4 shilling scarf out that was an heirloom in the family and hence was paid for before you were
